CAM - Effective Communication & Team-Oriented Problem Solving in Manufacturing

Online with Beth Carter
September 14 - October 12, 2022 8:30 am to 12:30 pm

FREE Online with Bristol Community College

Manufacturing is no longer dirty, dark and dangerous. It has transitioned into a dynamic industry with new technologies.

There are immense growth opportunities in the field of manufacturing.

Bristol's Effective Communication Team-Oriented Problem-Solving class will help participants do just that. This class will provide tools and techniques to help individuals thrive in a dynamic team environment. Several work-style, listening and communication assessments will be used to assist participants in gaining a better understanding of themselves and their communication style as well as the style of others. Emphasis will be placed on understanding the importance of listening, non-verbal communication as well as adapting to changing cultural norms to support individual and team growth.
