

SOUTHEAST REGION 6 WORKFORCE BOARDS

CAM - Geometric Dimensioning & Tolerancing

This free training is in concert with the methodology, symbology, and principles of the United States standards (principally ANSI Y14.5). Geometric Dimensioning and Tolerances is a means of specifying the geometry or shape of a piece of hardware on an engineering drawing. It is used as a communication tool for the design for the manufacturing cycle.

October 18 - November 8, 2022

Tuesdays from 9:00 - 11:00 am

This training will be held in person at the:

**MassHire Greater New Bedford
Workforce Board**

Quest Center for Innovation
1213 Purchase Street, 2nd Floor
New Bedford, MA 02740
