INDUSTRIAL ROBOTICS: HANDS-ON TRAINING FOR FUTURE INNOVATORS!

Gain real-world skills in robotics,
programming, and advanced
manufacturing

.....

This program offers hands-on experience with cobots and advanced 6-axis robotic arms and teaches programming and CAD skills. Participants earn industry-recognized certifications to enhance career prospects in robotics and advanced manufacturing. It's ideal for enhancing technical expertise or entering high-demand STEM careers, providing practical knowledge and real-world experience for success.

PROGRAM HIGHLIGHTS:

- ✓ Comprehensive Training
- ✓ Hands-On Labs
- ✓ Cobot Material Handling
- ✓ Software Skills: Rhino + Grasshopper, RAPID programming, AISync
