MACWIC Level 1 is a ten day training program that includes: Shop Math, Blueprint Reading, Metrology, Safety, and Work Readiness. This series of classes provides the foundation for more advanced technical training. These classes cover the basics of math concepts and terms, arithmetic operations, line drawings, special part features and configurations, hands on use of tools and measurements of product parts.

PREREQUISITES

- BE PRESENT EVERY DAY AND BE ON TIME,
- Serious, committed and ready for work upon completion of the program – placement assistance is available,
- Basic math, reading and writing skills,
- Ages 18+ and high school diploma or equivalent.
