

Bristol Community College presents No-Cost Trainings for Manufacturers

Effective Communications & Team-oriented Problem Solving

Class description:

Bristol's Effective Communication Team-Oriented Problem-Solving class will help participants do just that. This class will provide tools and techniques to help individuals thrive in a dynamic team environment. Several workstyles, listening and communication assessments will be used to assist participants in gaining a better understanding of themselves and their communication style as well as the style of others. Emphasis will be placed on understanding the importance of listening, non-verbal communication as well as adapting to changing cultural norms to support individual and team growth.

Active Listening Skills

Work and communications Style Assessments

Understanding Perceptions. Identifying and Understanding Different Communications Styles

Effective Communications Strategies

Problem Solving Effectively with Teams

Classes start Jan. 29, 2021 and run for 10 weeks, 20 hours total

About the instructor:

For over 10 years, Monet Viens has been helping a wide variety of businesses with their HR and employee development needs. By keeping her finger on the pulse of national, state, and local issues, Monet is current with the latest developments in HR and can offer a unique and strategic perspective on various business needs.
